PROFESSIONAL SUMMARY

Senior Full Stack Developer with of experience designing and delivering scalable SaaS and enterprise web applications, specializing in Laravel-based systems, Node.js real-time services, and modern frontend frameworks (React.js, Next.js, Vue.js, Nuxt.js).

Currently leading development of a gym and fitness management platform handling memberships, attendance, billing, and third-party integrations. Strong experience in RESTful APIs, cloud deployments (AWS), payment gateways, and biometric device integrations. Passionate about building reliable, secure, and high-performance systems aligned with real business needs.

EXPERIENCE

Full Stack Web Developer, 10/2024 - Current

Fursan Najd Sports Co., Riyadh, Saudi Arabia

- Own and enhance a Laravel-based Gym & Fitness Management System supporting memberships, class scheduling, attendance tracking, billing, and reporting.
- Design and maintain scalable RESTful APIs consumed by mobile applications and Vue.js / Nuxt.js web frontends.
- Developed a real-time attendance system using Node.js, WebSocket's, and Bio Star biometric device integration, enabling instant member check-ins.
- Built and launched a Nuxt.js marketing and customer portal, improving performance, SEO, and user engagement.
- Integrated the platform with Odoo ERP for automated invoicing, subscriptions, and financial reconciliation.
- Implemented secure online payment gateways (Pay Tabs, Stripe-style flows) with transaction verification and error handling.
- Led full-stack development across admin dashboards, staff portals, and customer-facing applications.
- Optimized database queries, improved system performance, and ensured application scalability for multi-branch gym operations.
- Conducted code reviews, debugging, and production issue resolution to maintain system reliability.

Full Stack Developer, 03/2022 - 09/2024

Excellent Solutions Co., Riyadh, Saudi Arabia

- Developed and maintained high-traffic web applications using Laravel, CodeIgniter, and Slim, following MVC and best-practice coding standards.
- Built responsive and modern UIs using HTML, CSS, Bootstrap, Tailwind CSS, Vue.js, jQuery, and AJAX.
- Designed and implemented RESTful APIs for frontend and third-party system integration.
- Worked extensively with MySQL, PostgreSQL, and MongoDB, ensuring optimized queries and data integrity.
- Built backend services using Node.js to support asynchronous processing and real-time features.
- Deployed and managed applications on AWS (EC2, S3, RDS) with a focus on scalability and security.
- Collaborated closely with designers, QA, and product teams to translate business requirements into production-ready solutions.

Web Developer, 08/2020 - 03/2022

Excellent Solutions Co., Riyadh, Saudi Arabia

- Developed frontend and backend modules for SaaS platforms using PHP, JavaScript, and MySQL.
- Created responsive, cross-browser compatible interfaces using HTML5 and CSS3.
- Integrated AWS Lambda for background processing and task automation.
- Implemented payment gateways (PayPal, Stripe) and multiple third-party APIs.
- Built CI/CD pipelines using Jenkins and Docker, reducing deployment time and errors.
- Automated infrastructure provisioning using AWS CloudFormation for scalable deployments.

PHP Developer, 05/2017 – 08/2020

Excellent Solutions Co, Riyadh, Saudi Arabia

- Assisted in the development and maintenance of PHP-based web applications.
- Collaborated with senior developers to troubleshoot and debug existing applications.
- Developed and integrated user-facing features using PHP, HTML, CSS, and JavaScript.
- Utilized Git for version control and collaborated on projects using GitHub.
- Gained hands-on experience with the Laravel framework and RESTful APIs.

Technology Manager, 12/2016 - 04/2017

Loggey, Riyadh, Saudi Arabia

- Conduct in-depth training sessions on shelved products, focusing on POS systems implementation and integration.
- Provide tailored product demos to clients, highlighting key features and benefits of POS systems.
- Manage installation and maintenance of operating systems and application software for POS systems.
- Integrate hardware and software components to ensure seamless operation of POS systems.
- Develop comprehensive product manuals for POS systems setup and operation.
- Maintain website content related to POS systems updates and support resources.
- Offer prompt online assistance to clients for POS systems inquiries and troubleshooting.
